

This is a PDF version of PECKHAMIA 2(3): 37, December 1982. Pagination of the original document has been retained. Editor's note (54.1): The species listed here are now known as *Terralonus mylothrus*, *Pelegrina pervaga*, and *P. aeneola*, respectively (Maddison, 1996, Bull. Mus. Comp. Zool. 154(4): 215-368).

**JUMPING SPIDERS OF THE UNITED STATES AND CANADA: ADDITIONS TO THE KEY AND LIST (5).** Bruce Cutler

When I compiled the species of *Metaphidippus* for the list, I missed the following species. I wish to thank B. J. Kaston and D. B. Richman for bringing them to my attention.

m *mylothrus* (*Dendryphantes*) Chamberlin 1925: 134-135, fig. 50-51. UT. NEW COMBINATION.

f *pervagus* (*Dendryphantes*) Peckhams 1909: 474, pl. 37, fig. 9-9a; *M. prevagus* (lapsus for *pervagus*) Petrunkevitch 1911: 640. KS.

m *uteanus* (*Dendryphantes*) Chamberlin & Gertsch 1929: 110, fig. 50-51; Chamberlin & Ivie 1933: 52. UT. NEW COMBINATION.

All above citations are listed in the *References* section of the original checklist (Richman and Cutler, 1978, Peckhamia 1(5): 82-110).

(Editor's Note: We have suspended adding numbers to species as they are added to the list. Final decision as to whether or not to number species will await a revision of the checklist to be published in a future number of Peckhamia.)
